October 2011**

Keeping you Updated

Did you know? The Canadian Diabetes Association has a Compassionate Use Program aimed at economically challenged Canadians who are unable to afford out-of-pocket costs for monitoring their blood glucose levels. Through this program, the Association is looking to distribute 4,901 free blood glucose monitoring kits across Canada. Visit www.diabetes.ca/meter or call 1-800-BANTING (1-800-226-8464), (option 7) to request an application.

Our Goal is to promote a standardized regional approach to falls screening, assessment and management through collaboration and integration thus reducing the risk of falls and falls related injuries in seniors.

If a senior had a fall in the past 12 months, had a 'near' fall in the past 3 months or has a fear of falling, consider doing a **Timed Up and Go** test as follows:

Have client sit in a chair with arms. Ask them to stand up, walk 10 feet, turn around and sit back down. Time from moment client's bottom leaves the chair until client sits back down. (TUG time > 14 secs is high risk)

The **North Simcoe Muskoka Integrated Regional Falls Program (IRFP)** has seen over 2000 seniors in its first full year of operation. Our team of 7 full time and 11 part time staff has nurses and physiotherapists as well as administrative and rehabilitation assistants. We provide support in all Emergency departments across the region by doing risk screening for falls and intensive case management within the home. We also do screening clinics throughout the region for falls prevention and education for seniors and their families. Specialized assessment clinics offer the expertise of other health care professionals including geriatricians to help clients with complex medical issues. Education sessions by our team on fall prevention and assessment are also available to community groups and health care teams in Simcoe County and Muskoka.

**Upcoming
Events**

End Falls This Fall

October 18, 2011 8:00 am—3:30 pm
Hawk Ridge Golf and Country Club in Orillia
Presented by Staying Independent Falls Prevention Coalition
